**Sheila Wright is an International Feng Shui Consultant, Teacher and Author. She is trained in Traditional Compass School (East-West and Flying Stars), Form School and Western Style Feng Shui. She practices an integrative style of feng shui, incorporating the best from each school, without creating any conflict.**

**In her workshops she teaches her students the importance of using conscious intentions, as an additional way to alter their lives in positive ways, in conjunction with understanding and using the appropriate elemental and symbolic remedies in their environment. Her approach to feng shui is based on the understanding that each person has a unique relationship in time and space to where they live and work. She enables her students to understand how their environment reflects their energies, both consciously and subconsciously. She is pleased to share this practical art and science with her students and clients so that they may experience the powerful and often immediate results in their environment and in their lives.**

**Sheila has been a student and teacher of spiritual studies for over twenty-five years. Her background also includes certification in Reiki II, and as a Master Hypnotherapist. She has extensively studied PsychoSynthesis and Neurolinguistics. She is an ordained minister with the International Metaphysical Ministry and is presently a Doctoral Candidate in Metaphysical Science with the International Metaphysical University.**

**She is an accomplished businesswoman and active in her community. She is a licensed Real Estate Professional and a partner with her husband in the BEST Of British Columbia, an Internet based business referral and business development company. She is a member of the International Feng Shui Guild, the Feng Shui Association of Canada, the Feng Shui Society of America, the American Society of Dowsers and the Orange County Feng Shui Guild.**
